## TEUTONS FAIL TO STEM THE ALLIED TIDE

Onrushing Waves of Entente Batter their Defenses West and East

**FRENCH AND BRITISH STEADILY GAIN ON SOMME FRONT—RUSSIANS HAVE REACHED GRANERKI AND SERETH RIVERS**

(Associated Press)

Petrograd, July 31.—The Russians pursuing the Teutons in the region of Brody on the Volhynian and Galician frontier have reached the rivers Granerki and Sereth, it is officially announced.

**ALLIES GAIN ON SOMME FRONT**

London, July 31.—The British last night advanced north of Bazentin-Lepetit on the Somme front, says the London war office.

Paris says German counter attacks on the Somme front were repulsed.

**ZEPPS BUSY AGAIN**

The second Zeppelin raid on the east coast of England within a week occurred this morning. An official announcement says an aeroplane attacked one of the dirigibles.

**ARABS PRESSING THE TURKS**

A news dispatch to London says the Arab forces sent to Hajas, on the coast of the Red Sea, after Jeddah fell, captured the Turkish town, fort and garrison of Yambo.

**PORTUGUESE REPULSED**

Portuguese naval forces operating in East Africa were repulsed in fighting with Germans.

**ITALIANS LOSE A STEAMER**

The Italian steamer Danola has been sunk.

**TEUTONS FAIL TO STEM THE TIDE**

The opening of the present week finds the prospects of the entente allies perhaps brighter than in any previous period of the war, according to the views held here, and the position of the Central Powers more discouraging. Gen. Brussloff's striking victories present the German general staff with the imperative problem of how to reinforce the eastern front, since Gen. von Linsingen, who was sent by the Germans to aid the shattered Austrians, now has been completely thrust back from the Lutsk salient.

But the same problem is presented on the western front, says an unofficial correspondent, the ceaseless battle seems steadily to gain intensity. "Doubtless the constant arrival of fresh German troops and guns," he adds, "has everything to do with this result. The enemy shows an increasing tendency to counter-attack."

These counter-attacks have failed to stem the steady entente allied advances, and although at present the fighting on the Somme is mainly devoted to obtaining mastery of small strategic positions, which will be the keys to further progress, there is yet no sign of the Germans making any effective counter-offensive.

**ANOTHER OUTBREAK IN SOUTHEASTERN CHINA**

(Associated Press)

Peking, July 31.—There was a revolutionary outbreak in Hankow last night. The district was burned and looted and many natives killed before foreign volunteers checked the uprising.

**MAXWELL CARS DELAYED**

The Maxwell agency has had bad luck in getting cars from the factory. The first carload of six struck the corner of the flooded section of Tennessee and was held up. Two carloads are now en route from the Detroit factory and the twelve machines will certainly arrive in a day or two. In the meantime, several customers are waiting most patiently for the shipment, the first of the 1917 model.

We have a new perfume, Bouquet Dozira, a fine luscious extract, \$2 per ounce. Gerig's.

## BATTLE ON THE BORDER

Bunch of Bandits Wiped Out by Regulars and National Guardsmen

(Associated Press)

El Paso, July 31.—Private John Twoney, of Troop F, Eighth United States cavalry and Robert Woods, a customs inspector, were killed and one soldier wounded in a clash between Mexican bandits who crossed the Rio Grande below Fort Hancock this morning. There were five bandits in the party and reports received here indicate all were killed. The reports state regulars were supported by a detail of Co. C, Massachusetts Infantry.

## NEUTRAL SHIP STRUCK A MINE

Passengers of Dutch Liner Wilhelmina Seem to Have Escaped in their Boats

(Associated Press)

London, July 31.—The Dutch mail steamer Koniginin Wilhelmina struck a mine near the North Hinder lightship, says a The Hague dispatch to Reuters. The passengers left in the lifeboats and made for the lightship.

**HUGE SHIPMENT OF THREAD**

In the A. C. L. freight depot is a single shipment of thirty cases of knitting thread or yarn which the 18 knitting machines at the Ocala Knitting Mill will soon convert into knitted underwear. These cases average 400 pounds each, making a total of 12,000 pounds, which is quite a lot of thread.

Few people realize the importance to Ocala of the Ocala Knitting Mill. It is now employing 75 people, has 18 knitting machines and over 50 individual machines used in the different finishing features of the garments. Twelve to fourteen hundred dozen finished garments are being shipped north each week. If the factory could deliver ten times this quantity each week it would be taken by its selling agents, Messrs. Clift & Goodrich of New York City, just like a bucket of water is soaked up in dry sand.

It is very gratifying to know that the mill has not had a single complaint from the hundreds of different houses throughout the United States to whom the goods have been shipped by Clift & Goodrich, and some of the big houses which have places orders for as much as five thousand dozen garments would soon complain, if the goods were not giving their customers entire satisfaction.

When one thinks of the many enterprises that have failed in the state, some of them, unfortunately, in Ocala, it is mighty fine to know that this enterprise, fostered and operated entirely by colored people, is making a 100 per cent success.

## ENDEAVORING TO FIX BLAME FOR EXPLOSION

MANY LIVES LOST AND MILLIONS OF PROPERTY DESTROYED AT COMMUNIPAW SUNDAY MORNING

(Associated Press)

New York, July 31.—Albert M. Dickman, a Lehigh Valley railroad agent at Black Tom Island, and Alexander Davidson, superintendent of warehouses for the National Storage company, have been arrested on a charge of manslaughter, indirectly causing the death of one victim by the explosion of ammunition at the pier yesterday. A warrant has been issued for Theodore B. Johnson, president of the lightering company one of whose barges loaded with ammunition it is alleged was moored at the pier.

Estimates of the casualties this morning placed the dead at three with three fatally hurt and thirty-five others injured. Eleven to twenty are missing. Some think the dead will reach twelve.

The property loss is estimated at twenty-five to forty-five million.

**LOSS OF LIFE DUE TO DISREGARD OF LAW**

Several investigations have been started. Col. Beverly W. Dunn, chief inspector of the bureau of explosives of the American Railway Association, the Interstate Commerce Commission and county prosecutor and Jersey City authorities are conducting probes. It is understood that justice department agents will conduct an inquiry to ascertain whether the explosion was the work of an incendiary.

Frank Hague, public safety commissioner of Jersey City, this morning declared the blame lay with the Lehigh Valley railroad, the storage company or lighterage company. He said that some one violated the laws of New Jersey, Jersey City ordinances and Interstate Commerce Commission rules by permitting barges to remain at the pier overnight. Lehigh officials assert that the barge moored at the pier without permission and in defiance of their orders and the first explosion took place there.

He sends for the Star to keep him posted on Marion county doings during his absence. The people of Marion county are gradually realizing that the Ocala Evening Star with its daily telegraphic service gives them not only the local news of the county but also the world's news and are subscribing for it instead of the Weekly Star.

Dr. Smith has shown the Star a picture of the camp of the Seventh Illinois regiment at San Antonio, sent him by his son Captain Dan Morgan Smith, commander of one of the companies in the regiment. The camp certainly looks like it is in apple pie order.

## BRITAIN IS CALLED TO BOOK

Lengthy Note from America Anent the Black List

(Associated Press)

Washington, July 31.—Great Britain is warned, in the American note of protest against the blacklist, made public last night by the state department, of the "many serious consequences to neutral right and neutral relations which such an act must necessarily involve."

Already in the hands of the British foreign office, the note declares "in the gravest terms" that it is "manifestly out of the question that the government of the United States should acquiesce in such methods" and that the United States regards the blacklist as "inevitably and essentially inconsistent with the rights of all the citizens of all the nations not involved in the war." It reminds the British government that "citizens of the United States are entirely within their rights in attempting to trade with the people of the governments of any of the nations now at war, subject only to well defined international practices and understandings which the government of the United States deems the government of Great Britain to have too lightly and frequently disregarded."

The American note is even more positive in its terms than officials have intimated. Ambassador Page was instructed by Acting Secretary Polk to deliver it formally and textually.

**IMPORTANT INFORMATION**  
Rules and Regulations Governing Ocala's Free Library

The rules committee of the public library have adopted the following rules to govern the institution as soon as it is formally opened. The various committees are hard at work every day getting everything in readiness to open up. The task of indexing by title and cross indexing by subjects is a hard one, and those in charge of the work deserve much credit for their untiring efforts in getting the library in shape for use. The opening date will be announced as soon as the work is complete, which the committees hope will be in the next few days.
